

## Skyscape 2024/25 Foil Evolution

Skyscape, the personal choice of Loftsails' chief sail designer Monty Spindler, is a sail designed to provide versatility, lightness, and pure enjoyment in freefoil sailing.

With its high-aspect design, Skyscape perfectly balances the low drag of the hydrofoil. It features a shorter boom and no cams, allowing for effortless flipping during transitions without disrupting the board's delicate trim.

The current range of Skyscape sails has been expanded with the addition of new sizes: 4.2 and 4.7. These sizes are shaped with a 5-batten profile, while the other sizes maintain their stable 6-batten layout. Selected battens in each size have been revised and fine-tuned to create a more forward-oriented profile.

Skyscape sails offer a wide range of trimming options thanks to their strong luff curve and finely-tuned horizontal shapes. The double clew eyelets provide additional versatility, allowing the selected size to continue performing when others may need to change their sails.

Moreover, if foiling becomes less exciting, Skyscape sails can still be highly effective with a fin setup.

Similar to other Loftsails designs, all sail sizes below 7.0 are compatible with both RDM and SDM masts.

**Monty Spindler**  
Sail Designer

„Skyscape is an Oxygen on steroids. Similar in concept to the Oxygen and sporting a higher aspect ratio suitable for foiling. Transition-ease in a fast, performant package. Planchemag 2023 test winner.“

## 2024/25 Foil Sails Range

Wind Vision is performance greater than the sum of the parts.

### Sail Specifications

Size (m2)	Luff (cm)	Boom (cm)	Extension (cm)	Top	Battens	Masts	Weight (kg)
4.2	380	150	10	Fixed	5	Team Edition 370	tbc
4.7	402	156	32	Fixed	5	Team Edition 370	tbc
5.2	424	166	24	Fixed	6	Team Edition 400	tbc
5.8	442	172	12	Fixed	6	Team Edition 430	4.27
6.4	462	186	32	Fixed	6	Team Edition 430	4.50
7.0	482	194	22	Fixed	6	Team Edition 460	4.64
8.0	518	204	28	Fixed	6	Team Edition 490	5.34
9.0	548	218	28	Fixed	6	Team Edition 520	5.62
